

CA - Network

Assignment 1: Draw your home network topology & explain it

- ISP & modem/router: The internet service provides your internet connection through a modem.
- Router - The router connects all devices in the home network.
- Wifi connected devices - Devices like laptops, smartphones, smart TVs & IoT devices connect wirelessly.
- Ethernet connected devices - Devices like desktop, PCs or gaming consoles may use a wired ethernet connection for future use, faster & more stable performance.
- IoT devices - These include smart home devices like smart speakers, cameras and lights.
